

Metaloids

Semiconductor Process Gases

Disclaimer

Every effort has been made in good faith to ensure that Metaloids information is accurate, up-to-date and complete. Metaloids product information is an informational resource designed to serve users viewing this service as a supplement to, and not a substitute for, the expertise, skill, knowledge and judgment of informed scientists and technologists.

Metaloids does not assume any responsibility or liability whatsoever for results of product application, patent infringements or any aspect of a process application carried out with the aid of information Metaloids provides. No representation or warranty of merchantability, fitness for a particular purpose, or any other nature is expressed or implied.

The information contained herein is not intended to cover all possible uses, conditions of use, directions, chemical interactions, side reactions, or adverse effects. Users are responsible for the proper storage, handling, use and disposal of the product, and for observing statutes, regulations and ordinances.

If you have questions about the use of a specific process gas in your application then check with your application specialist.
